

Inspired Minds

MOBILE DEVELOPER JD

Inspired Minds

Who We Are

Inspired Minds is a faith based, voluntary mental health charity located in London that launched in 2014 with the aim to raise awareness, combat stigmas and provide professional, non-judgemental, confidential support to those with mental health illnesses. Although Inspired Minds works predominantly with those from an Islamic faith, we do not disregard any persons of differing backgrounds. Our initial research showed many Muslims found it difficult to seek help as they felt they would not be understood by someone who did not understand their faith or culture, thus they chose to remain quiet and not seek help. We are here to change this and cater for this need.

Our Vision

We are passionate to build a society where people experiencing mental health challenges can receive understanding, recognition and are empowered to live a fulfilling life.

Our Mission

We are a grassroots charity which aims to reduce stigma, raise awareness and provide advice, support and encouragement to those, in particular Muslims, affected by mental health problems from a faith and culturally sensitive perspective.

Our Values

Our core values form the foundation, beliefs and principles that lie at the heart of our organisation.

Islamic

We are inspired, anchored and guided by our faith, which illuminates why we do what we do.

Compassionate

We attend to the needs of every person with sensitivity, empathy and kindness.

Ambitious

We are determined to go the extra mile and make a lasting difference.

Respect

We treat one another with dignity, honesty and understanding; valuing differences and all contributions.

Excellence

We continuously learn, improve and strive to be the best in everything we do.

Mobile Developer JD

Job Title: Mobile Developer

Team: Technology

Hours: 3-5 hours per week (mostly remotely with monthly meetings in London)

Duration: Permanent

Purpose: The Mobile Developer will aid the design, development and maintenance of our mobile applications.

Responsibilities

- Creation of our Mobile Support Centre and Wellbeing applications.
- Support the entire application lifecycle (concept, design, test, release and support).
- Gather and refine specifications and requirements based on user needs and write well designed, testable, efficient code by using best software development practices.
- Build high-quality mockups and design prototypes.
- Develop and test across multiple operating systems, platforms and devices.
- Act as an advocate where needed and provide information and advice to individuals and families affected by mental health problems.
- Work with their line manager and team to achieve frequent, timely and positive outcomes.
- Relay updates as and when required by their line manager.
- Ensure all due diligence is carried out with regards to services provided.
- Conduct all tasks with regards to any and all relevant legislation, policies and procedures.
- Maintain a high degree of professionalism, privacy and confidentiality at all times.

Requirements

- Proficient in Mobile Application Development using technologies such as Objective-C, Swift, Java, Kotlin or Flutter.
- Knowledge and experience with REST Web Services.
- Familiarity with Version Control Systems such as Git.

Team Work

- To ensure confidentiality and privacy are never breached.
- To attend and participate in meetings.
- To work respectfully and cooperatively with colleagues, taking on board suggestions and recommendations.
- To attend any training to progress in individual professional development.
- To participate and take on any further tasks in relation to the post, which may benefit Inspired Minds.
